Dispensadores de Cool1

Essential in its design, simple in its features and powerful in its performance.

COOL1

Essential in its design,
simple in its features
and powerful in its performance,
Cool1 is the Blupura cooler designed
for self-service areas and cafeterias.

Capable of supplying large quantities of still and sparkling water,
Cool1 is a sturdy, reliable cooler, with features
that are geared towards maximum simplicity
and ease of use, such as:

- Dual-function buttons positioned low down.
- Convenient frontal opening for easy maintenance and inspection.
- Solenoid valve at the inlet.
- Internal space available for a filter bracket and the 6kg CO₂ cylinder-holder strap
- 4 adjustable feet.

Optional extras include:

- Active carbon filtration - In line UV.
- UV OUT.

UV out

A UV light at end of every tap. As demonstrated by numerous studies, UV light acts as a strong steriliser therefore preventing the growth of bacteria.

Ice Bank

This is the most high-end professional cooling technology, which is necessary in all those hospitality industry situations in which the highest levels of performance are essential.

These levels are reliably achieved thanks to the immersion of the water coils and the refrigerant gas coils into an ice bank.

Natural refrigerant gases

With totally natural refrigerants (HC) such as R290.

An ecological choice, with the added advantage of a more silent compressor and ensuring a longer life to entire refrigerant apparatus.

Accessories

Bottle-washing basket

The universal basket for professional catering dishwashers. Maximum capacity: 25 bottles. Max diameter: 8.7 cm.

Dimensions WxDxH (mm)
Cover: 500x500x24
Basket: 500x500x308
Trolley: 543x543x203

Water bottles

Space* for own logo or message.

Sport Bottle 60 cl. Inox Bottle 50 cl. Style Bottle 75 cl. Click Bottle 100-50-25 cl.

UV filtration in line (12W)

In line UV light (installed outside).

Sanitizing products

Sanitizing and cleaning products for the plants.

Active carbon filters

Purifies the water making it crystal-clear, removing odour and taste impurities. It totally eradicates any impurity with a size of 0.5 microns, eliminates all odours and unwanted tastes such as chlorine, asbestos fibres and number of microorganisms including crypto-sporidium.

- Everpure 4C (capacity 11.000 lt.).
- Everpure AC (capacity 2.800 lt.).

UVC lamp at exit (4W)

A UV light at the end of every tap. As demonstrated by numerous studies, UV light acts as a strong steriliser therefore preventing the growth of bacteria.

Nano Silver pipe

Stainless steel tube AISI 316L with an innovative nanotechnology-based SILVER ion treatment on the surface. Silver is naturally bacterio-static and so reduces bacterial growth in the pipe. The surface treated with these nano particles is much more compact and smooth: this prevents the formation of deposits, biofilm or bacterial colonies and because the water flows better through the tube, also reduces dripping at the end of dispensing.

Pressure reducers

CO₂ pressure reducer for refillable or single-use cylinder, water block, water pressure reducer.

Certifications (see official listing):

Associations:

The quality of our water-coolers has been certified and awarded by the most important international certification bodies in the sector. A further guarantee for those who buy them and those who use them, and a source of pride for us as we reach for maximum results by focusing on **avant-garde technology, design and ecology**.
